

# No \$3 Billion for Amazon

## It is not a done deal!

**Queens Senator Gianaris was just nominated to the Public Authorities Control Board where he wants to force a renegotiation. We support his efforts.**

- **To get control away from the City Council, the Legislature and local Community Boards, the Mayor and Governor claimed Long Island City is a blighted slum subject to State control. (Average LIC rent = \$3,332 a month. Median income = \$48,773.)**
- **Behind closed doors, they gave Amazon land that was going to be used to build 6,000 apartment units, 1,500 with affordable rents.**

“I abhor corporate welfare. It is unconscionable that we—in the middle of the housing crisis, in the middle of the public transportation crisis—have to dole out so many handouts to the richest company in the world. We have to stop this deal and we need to make sure they come to the table to make real gains for New York.”

Queens State Senator  
Jessica Ramos

**Use the \$3 billion for subways, housing and schools. Don't give it to the world's richest person.**

**Call Governor Cuomo:**

**(518) 474-8390 (212) 681-4580**

**Say, confirm Gianaris and start over.**
