

Hon. David Paterson
Governor, New York State
State Capitol
Albany, New York 12224

Dear Governor Paterson:

I am concerned about the quality of water in New York State. Please require the Department of Environmental Conservation to rescind the draft Supplemental Environmental Impact Statement that was released in October 2009, because it does not adequately address the risks of gas drilling by hydraulic fracturing in New York State.

I am asking you to ban all gas drilling in New York State that uses hydraulic fracturing.

We need to develop alternative sources of energy that do not harm the environment, as well as support, encourage, and require conservation methods to use less energy.

Sincerely,

Name _____ Date _____
