

A Petition to President Obama and New York's Representatives in Washington:

We, the undersigned New Yorkers, call on you to oppose:

- ◆ Any cuts in Social Security benefits,
- ◆ Any privatization of Social Security,
- ◆ Any decrease in benefits for today's younger people when they become eligible,
- ◆ Any further extension of the Social Security payroll tax cut, and
- ◆ Any increase in the retirement age.

Currently, the portion of a person's wages above \$110,100 is not taxed for Social Security. We call on you to support legislation that removes the cap on Social Security for wages above \$250,000. The Chief Actuary of Social Security says this would solve any financial problems far into the future.
